Welcome, SOM

To run live polls, quizzes or Q&A sessions, create your first event.

[+ Create Slido](#) [Watch how it works](#)

Run Slido directly from your favorite tool

 Google Slides	 Microsoft PowerPoint <i>Beta</i>	 Microsoft Teams <i>New</i>	 Webex Meetings <i>Soon</i>
--	---	---	---

- For the purposes of these instructions, we will focus on Google Slides. Click on the icon for Google Slides highlighted in the yellow box above. In the future, once you have set up Slido, you can access Slido in your Google slides.
- To set this up in Google Slides, you will need to have both the Chrome Extension and the Google Sides Add On. Please click this link for instructions on setting this up:
<https://community.sli.do/use-slido-with-google-slides-37/use-slido-with-google-slides-513>.

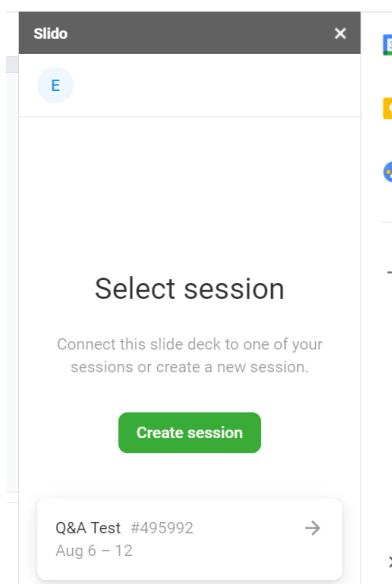

Using Slido in Google Slides - The Basics

Once you have downloaded the Google app and the Chrome extension, you are ready to use Slido in Google Slides.

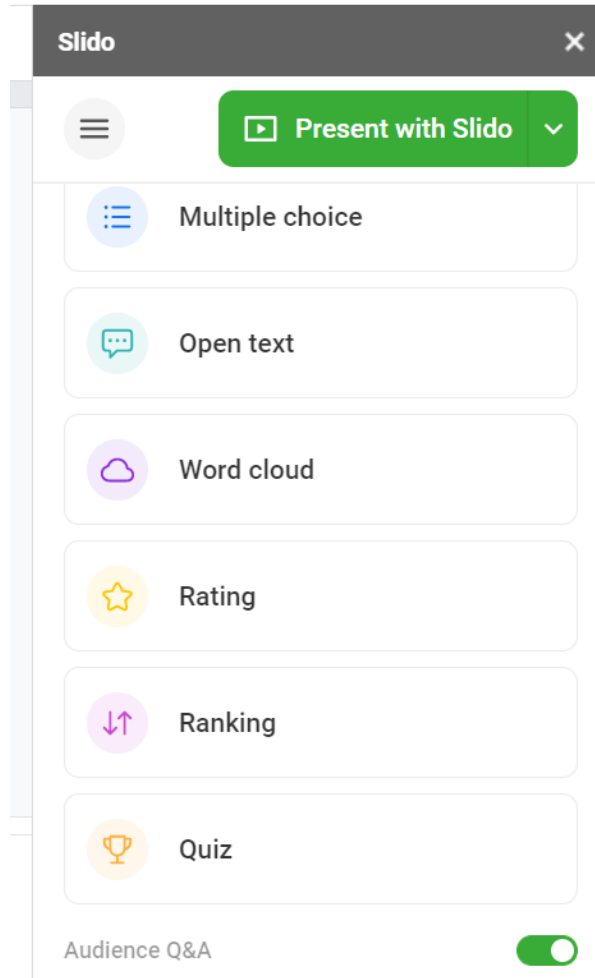

- Open Google Slides and you should see the Slido icon in the Add-on Toolbar at the top.

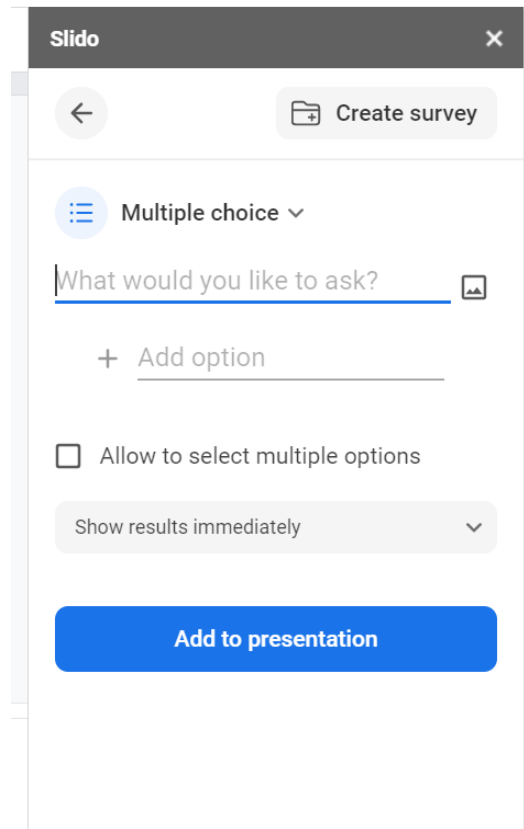

- Click Slido in the toolbar and the program will open up next to your current Slide. Go to where you want to insert a question and click Create a Session.

- Choose the type of question or polling that you would like to present. You have the option of Multiple choice, Open text, Word Cloud, Rating, Ranking and Quiz. You can also choose to open a Q&A.

When you choose one of the options you are prompted along the way on what to do. See the example for the Multiple Choice option below:

The screenshot shows the Slido mobile app interface for creating a multiple choice question. At the top, there is a dark header with the text "Slido" and a close button (X). Below the header, there is a navigation bar with a back arrow on the left and a "Create survey" button on the right. The main content area is titled "Multiple choice" with a dropdown arrow. Below the title, there is a text input field with the placeholder text "What would you like to ask?" and an image icon on the right. Underneath the input field, there is a "+ Add option" button. Below the options, there is a checkbox labeled "Allow to select multiple options". At the bottom of the form, there is a dropdown menu labeled "Show results immediately" with a downward arrow. Finally, there is a large blue button labeled "Add to presentation" at the bottom of the screen.

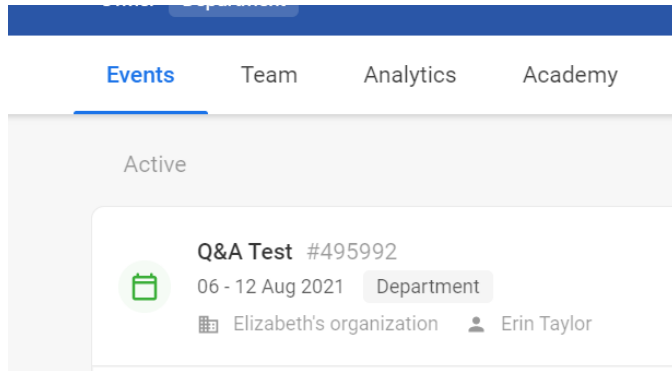

You can also include an image. You can choose to show the results immediately, upon your initiation, or never.

Once you add the question to your presentation, it is ready to go.

You only need to click on the Present with Slido green button at the top.

Press the Reset button to start the presentation again.

Of course, on the main Slido home page, www.slido.com, where all of your presentations can be seen, there is the Academy link at the top.

This link provides all of the information you need with tutorials and videos.
